# 3 Composition/information on ingredients

# • Chemical characterization: Substances

· CAS No. Description

67923-21-1 Siloxanes and Silicones, di-Me, (triethoxysilyl)oxy)-terminated

# 4 First-aid measures

## <sup>•</sup> Description of first aid measures

· General information: No special measures required.

• After inhalation: Supply fresh air; consult doctor in case of complaints.

### · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation is experienced, consult a doctor.

#### • After eye contact:

Protect unharmed eye.

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. Then consult a doctor.

### After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting.

If symptoms persist consult doctor.

### Most important symptoms and effects, both acute and delayed:

Nausea in case of ingestion.

May cause gastro-intestinal irritation if ingested.

- **Danger:** No relevant information available.
- · Indication of any immediate medical attention and special treatment needed:

No relevant information available.

## 5 Fire-fighting measures

# Extinguishing media

Suitable extinguishing agents: Water fog / haze Foam Alcohol resistant foam Carbon dioxide Fire-extinguishing powder Gaseous extinguishing agents
For safety reasons unsuitable extinguishing agents: Water stream.
Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.

# <sup>•</sup> Advice for firefighters

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: May 30, 2019

## Trade name: GP-179

(Cont'd. of page 2)

### · Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit. Additional information:

Eliminate all ignition sources if safe to do so.

Cool endangered containers with water fog.

# 6 Accidental release measures

# • Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation.

Keep away from ignition sources.

Protect from heat.

• Environmental precautions Do not allow to enter sewers/ surface or ground water.

• Methods and material for containment and cleaning up

Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Dispose contaminated material as waste according to item 13.

Send for recovery or disposal in suitable receptacles.

## **Reference to other sections**

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# 7 Handling and storage

### · Handling · Precautions for safe handling: Prevent formation of aerosols. Use only in well ventilated areas. Avoid splashes or spray in enclosed areas. Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect from heat. Flammable gas-air mixtures may be formed in empty containers/receptacles. Flammable liquid and vapor. Conditions for safe storage, including any incompatibilities · Requirements to be met by storerooms and receptacles: Store in a cool location. Provide ventilation for receptacles. Avoid storage near extreme heat, ignition sources or open flame. Information about storage in one common storage facility: Store away from foodstuffs. Store away from oxidizing agents. · Further information about storage conditions: Protect from humidity and water.

Keep containers tightly sealed.

(Cont'd. on page 4)

Trade name: GP-179

(Cont'd. of page 3)

• Specific end use(s) No relevant information available.

# 8 Exposure controls/personal protection

## Control parameters

· Components with limit values that require monitoring at the workplace: Not required.

## • Exposure controls

## General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

- Engineering controls: Provide adequate ventilation.
- Breathing equipment: Not required under normal conditions of use.
- Protection of hands:

Protective gloves

## · Material of gloves

A reccomendation for a suitable glove material is not available. Testing will be required to determine the suitability of any potential glove materials.

# Eye protection:

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

• Body protection: Protective work clothing

Limitation and supervision of exposure into the environment

Avoid release to the environment.

<sup>•</sup> Risk management measures

See Section 7 for additional information.

No relevant information available.

# **10 Stability and reactivity**

· Reactivity: No relevant information available.

- · Chemical stability:
- Thermal decomposition / conditions to be avoided:
- Keep away from heat/sparks/open flames/hot surfaces. No smoking.

# Possibility of hazardous reactions

- Combustible liquid.
- Reacts with oxidizing agents.

Reacts with peroxides and other radical forming substances.

- Reacts with acids.
- Reacts with alkali (lyes).

Used empty containers may contain product gases which form explosive mixtures with air.

Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomized.

· Conditions to avoid Keep ignition sources away - Do not smoke.

### · Incompatible materials

Oxidizing agents.

Strong acids and alkali.

# Hazardous decomposition products

Carbon monoxide and carbon dioxide

## 13 Disposal considerations

## <sup>•</sup> Waste treatment methods

# · Recommendation:

Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

## <sup>·</sup> Uncleaned packagings

• Recommendation: Disposal must be made according to official regulations.

· UN-Number	
· DOT, ADR/RID/ADN, IMDG, IATA	UN1993
· UN proper shipping name	
Limited Quantity for packages les (1.3 gal).	ss than 30 kg (66 lb) and inner packagings less than 5 L
DOT	Flammable liquids, n.o.s. (triethoxysiloxy terminat polydimethylsiloxane)
· ADR/RID/ADN	1993 FLAMMABLE LIQUID, N.O. (TRIETHOXYSILOXY TERMINATE POLYDIMETHYLSILOXANE)
